

CCS2994 | CSE2994 - Group Project

Progress Report - 04

Project Identification Information

Project title	: Unified Business Management System
Student names with initials and Index Numbers	: R.M.L.G.Rathnadoowa – FC221007 : R.D.R.P.Ranasinghe - FC222016 : B.A.M.J.Ranasingha – FC222030 : T.A.K.V.I De Alvis – FC222003 : W.M.A.T.Weerasekara – FC221020 : T.G.K.Pabodha – FC222051 : B.P.U.Mendis – FC221034 : D.T.Paranavithana – FC222042
Supervisor's name	: Mr. K.D.T.Rangana

Progress Report Period

Start Date: 2026.05.16

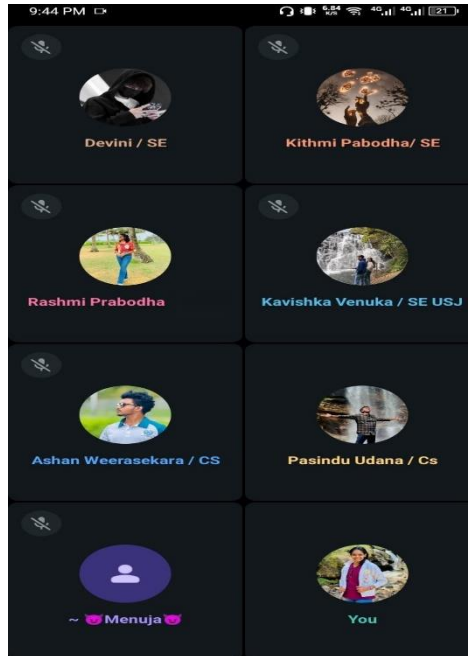

End Date: 2026.05.29

Work Carried out between this meeting and previous meeting

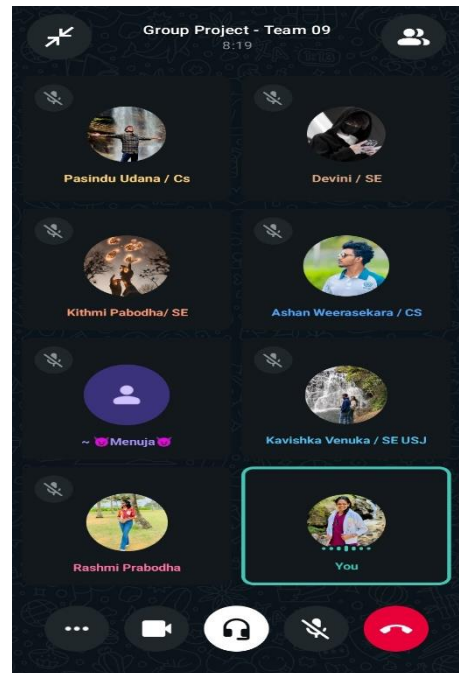

- Submitted the progress report 03 on 2026.05.15
- Successfully completed the development of all planned frontend functionalities of the system.
- Completed the implementation of all backend services and business logic modules.
- Finalized database structure and completed all required MongoDB integration and data handling operations.
- Began the formal testing phase of the project.
- Test case preparation and execution were initiated by the tester.
- Updated project documentation and GitHub repository with latest implementations.

Evidence of Work Carried out between this meeting and previous meeting

Meetings :

2026.05.16

2026.05.23

Test Cases :

A		B		C		D		E		F	
UDMS – Software Test Cases											
Client -> app -> customer											
Customer - Dashboard											
TC ID		Module	Test Scenario	Pre-Conditions	Test Steps	Expected Result					
TC-DASH-01	Dashboard Loading	Verify dashboard loads successfully	Customer account exists	1. Login as customer 2. Open dashboard	Dashboard loads without errors						
TC-DASH-02	Loading Spinner	Verify loading message appears	Slow network connection	1. Open dashboard	Loading Dashboard - message appears until data loads						
TC-DASH-03	Active Orders Card	Verify active orders count	Dashboard data available	1. Open dashboard 2. Check Active Orders card	Correct active order count displayed						
TC-DASH-04	Pending Quotations	Verify quotation count display	Quotation records available	1. Open dashboard	Correct quotation count displayed						
TC-DASH-05	Delivered Items	Verify delivered items count	Delivered orders available	1. Open dashboard	Correct delivered item count displayed						
TC-DASH-06	Due Payment Card	Verify due payment amount	Pending payment records available	1. Open dashboard	Correct payment amount displayed						
TC-DASH-07	Pending Payments Table	Verify payment table records	Pending payments available	1. Open dashboard	Payment records displayed correctly						
TC-DASH-08	Empty Payments	Verify no payment message	No pending payments available	1. Open dashboard	No pending payments at the moment message displayed						
TC-DASH-09	Quotation Cards	Verify quotation details	Quotation data available	1. Open dashboard	Quotation details shown correctly						
TC-DASH-10	Recent Activity	Verify recent activity section	Recent activity exists	1. Open dashboard	Activities displayed correctly						
TC-DASH-11	Support Button	Verify support ticket button	Dashboard loaded	1. Click 'Open Support Ticket' button	Support page or modal opens						
TC-DASH-12	Responsive Design	Verify mobile responsiveness	Dashboard loaded	1. Resize browser 2. Open mobile view	Layout adjusts correctly						
TC-DASH-13	API Failure Handling	Verify API error handling	Backend API unavailable	1. Disconnect API 2. Open dashboard	System handles errors gracefully						
TC-DASH-14	Role Access	Verify unauthorized access restriction	Non-customer account exists	1. Login as another role 2. Try opening customer dashboard	Access denied or redirected						
TC-DASH-15	Hover Effects	Verify hover animations	Dashboard loaded	1. Hover cards and buttons	Hover styles and transitions work correctly						
Customer - Delivery Tracking											
TC ID		Module	Test Scenario	Pre-Condition	Test Steps	Expected Result					
TC-DT-01	Order Load	Verify orders load successfully	User has orders in system	1. Open page 2. Wait for fetchOrders API	Orders should load and appear in dropdown						
TC-DT-02	Loading State	Verify loading spinner appears	Slow API response	1. Open page	"Syncing Deliveries..." loader shown						
TC-DT-03	Order Selector	Verify dropdown shows orders	Orders exist	1. Open dropdown	Order ID, date, status displayed						
TC-DT-04	Order Selector	Verify no orders message	No orders in DB	1. Open dropdown	No orders found shown						
TC-DT-05	Order Selection	Verify selecting order updates UI	Multiple orders exist	1. Select order from dropdown	Selected order details displayed						
TC-DT-06	Delivery Details	Verify tracking number display	Order has tracking number	1. Open order	Tracking number shown correctly						
TC-DT-07	Delivery Details	Verify missing tracking number	No tracking number	1. Open order	Awaiting Dispatch shown						
TC-DT-08	Order Summary	Verify total amount display	Order exists	1. Open order	Correct LKR amount displayed						
TC-DT-09	Timeline	Verify order timeline rendering	Order exists	1. Open order	All stages (Placed -> Delivered) shown						
TC-DT-10	Timeline Status	Verify current stage highlight	Order in progress	1. Open order	Current stage highlighted (cyan)						
TC-DT-11	Confirm Button	Verify confirm button action	Status is dispatched/in-transit	1. Open order	"Confirm Dispatch" button visible						
Sheet1											

TC ID	Module	Test Scenario	Pre-Conditions	Test Steps	Expected Result
TC-INV-01	Invoice Loading	Verify invoice page loads successfully	Customer account exists	1. Login as customer 2. Open invoice page	Invoice page loads without errors
TC-INV-02	Loading State	Verify loading spinner appears	Slow network/API	1. Open invoice page	Syncing Bills - loading message displayed
TC-INV-03	Paid Invoice Count	Verify paid invoice count displays correctly	Paid invoices exist	1. Open invoice page	Correct paid invoice count shown
TC-INV-04	Unpaid Invoice Count	Verify unpaid invoice count displays correctly	Unpaid invoices exist	1. Open invoice page	Correct unpaid invoice count shown
TC-INV-05	Awaiting Generation Count	Verify pending invoice generation count	Delivered unawaited orders exist	1. Open invoice page	Correct awaiting generation count displayed
TC-INV-06	Pending Orders Table	Verify pending deliveries table displays	Pending orders available	1. Open invoice page	Pending delivery records shown correctly
TC-INV-07	Empty Pending Orders	Verify no pending deliveries section	No pending orders	1. Open invoice page	Pending deliveries section hidden
TC-INV-08	Generate Invoice Button	Verify invoice generation button works	Delivered order exists	1. Click Generate Invoice	Invoice generated successfully
TC-INV-09	Generate Invoice Loader	Verify loader during invoice generation	Invoice generation started	1. Click Generate Invoice	Spinner animation appears
TC-INV-10	Generate Invoice Error	Verify error handling during generation	Backend/API failure	1. Click Generate Invoice	Error toast message displayed
TC-INV-11	Invoice History Table	Verify invoice history displays correctly	Invoices exist	1. Open invoice page	Invoice records shown correctly
TC-INV-12	Empty Invoice History	Verify empty invoice history state	No invoices available	1. Open invoice page	No invoices found message displayed
TC-INV-13	Invoice Status Badges	Verify invoice status color coding	Invoices available	1. Check invoice status badges	Correct badge color shown for paid/unpaid/pending
TC-INV-14	View Invoice Button	Verify invoice modal opens	Invoice exists	1. Click view icon	Invoice detail modal opens
TC-INV-15	Close Invoice Modal	Verify invoice modal closes	Invoice modal opened	1. Click close button	Modal closes successfully
TC-INV-16	Download Invoice	Verify invoice download/print works	Invoice exists	1. Click download button	Invoice PDF/download triggered
TC-INV-17	Print Invoice	Verify print button functionality	Invoice modal open	1. Click Print button	Print dialog opens
TC-INV-18	Pay Button Visibility	Verify Pay button appears for unpaid invoices	Invoice status = unpaid	1. Open invoice history	Pay button displayed
TC-INV-19	Pay Button Hidden	Verify Pay button hidden for paid invoices	Invoice status = paid	1. Open invoice history	Pay button not displayed
TC-INV-20	Payment Navigation	Verify payment page navigation	Unpaid invoice exists	1. Click Pay button	Redirected to payment page
TC-INV-21	Invoice Date Format	Verify invoice date format	Invoices exist	1. Open invoice history	Dates displayed correctly
TC-INV-22	Currency Display	Verify LKR formatting	Invoice exists	1. Open invoice details	Currency displayed in LKR format
TC-INV-23	Invoice Item Table	Verify invoice item details	Invoice contains items	1. Open invoice modal	Item name, qty, price displayed correctly
TC-INV-24	Tax Calculation	Verify tax amount display	Invoice contains tax	1. Open invoice modal	Correct tax amount shown
TC-INV-25	Grand Total Calculation	Verify grand total calculation	Invoice exists	1. Open invoice modal	Correct total amount displayed
TC-INV-26	Due Date Display	Verify due date calculation	Invoice exists	1. Open invoice modal	Due date displayed correctly (+30 days)
TC-INV-27	Customer Information	Verify billing customer information	User logged in	1. Open invoice modal	Customer name/email/address displayed
TC-INV-28	Responsive Layout	Verify responsive design	Application opened	1. Resize browser window	Layout adjusts correctly
TC-INV-29	Unauthorized Access	Verify safe handling without login	User not logged in	1. Open invoice page	No crash / protected handling
TC-INV-30	API Fetch Failure	Verify invoice fetch API failure handling	Backend unavailable	1. Open invoice page	Error toast shown without crash
Customer - My Orders					
TC ID	Module	Test Scenario	Pre-Conditions	Test Steps	Expected Result
TC-ORD-001	My Orders	Verify My Orders page loads successfully	Customer user logged in	1. Login as customer 2. Navigate to My Orders page	My Orders page should load with order data
TC-ORD-002	My Orders	Verify loading spinner displays while fetching orders	Orders available in database	1. Open My Orders page 2. Observe loading state	Loading spinner and "Syncing Orders..." message should display
TC-ORD-003	My Orders	Verify all statistic cards are displayed	Customer has orders	1. Open My Orders page	Pending, Processing, Dispatched, In Transit, and Delivered cards should display
TC-ORD-004	My Orders	Verify pending orders count is accurate	Pending orders exist	1. Open My Orders page 2. Compare pending count with actual	Pending count should match pending orders

TC ID	Module	Test Scenario	Pre-Conditions	Test Steps	Expected Result	
TC-CUSTORD-001	Admin - Customer Orders	Verify Customer Orders page loads successfully	Admin user logged in	1. Open Customer Orders page	Customer Orders page should display without errors	
TC-CUSTORD-002	Admin - Customer Orders	Verify all orders are displayed in orders table	Orders available in database	1. Open Orders List tab	Orders table should display all customer orders	
TC-CUSTORD-003	Admin - Customer Orders	Verify loading spinner appears while fetching orders	Slow API/network connection	1. Open Orders List tab 2. Observe loading state	Loading spinner should appear until data loads	
TC-CUSTORD-004	Admin - Customer Orders	Verify search by Order ID	Orders available	1. Enter valid Order ID in search box	Matching order should display	
TC-CUSTORD-005	Admin - Customer Orders	Verify search by Customer Name	Orders available	1. Enter customer name in search box	Relevant customer orders should display	
TC-CUSTORD-006	Admin - Customer Orders	Verify no results message for invalid search	Orders available	1. Search invalid keyword	No orders found message should display	
TC-CUSTORD-007	Admin - Customer Orders	Verify status filter works for Pending orders	Pending orders available	1. Select "Pending" filter	Only pending orders should display	
TC-CUSTORD-008	Admin - Customer Orders	Verify status filter works for Completed orders	Completed orders available	1. Select "Completed" filter	Only completed orders should display	
TC-CUSTORD-009	Admin - Customer Orders	Verify switching between Orders List and Order Details	User on Customer Orders page	1. Click Orders List tab 2. Click Order Details tab	Correct tab content should display	
TC-CUSTORD-010	Admin - Customer Orders	Verify View button opens selected order details	Order selected	1. Click View button of an order	Selected order details should display	
TC-CUSTORD-011	Admin - Customer Orders	Verify invoice information displays correctly	Order selected with customer data	1. Open Order Details tab	Invoice information should match selected order	
TC-CUSTORD-012	Admin - Customer Orders	Verify customer details display correctly	Order selected with customer data	1. Open Order Details	Customer details should display correctly	
TC-CUSTORD-013	Admin - Customer Orders	Verify fallback text displays when customer details missing	Order with missing details	1. Open order details	Default fallback text should display	
TC-CUSTORD-014	Admin - Customer Orders	Verify ordered items display in itemized list	Order contains items	1. Open order details	Ordered items should display correctly	
TC-CUSTORD-015	Admin - Customer Orders	Verify empty item message displays when no items exist	Order without items	1. Open order details	No items in this order message should display	
TC-CUSTORD-016	Admin - Customer Orders	Verify invoice total amount calculation	Order contains item prices	1. Open invoice summary	Total amount should calculate correctly	
TC-CUSTORD-017	Admin - Customer Orders	Verify delivery tracking timeline displays correctly	Timeline data available	1. Open Delivery Tracking section	Timeline steps should display with correct statuses	
TC-CUSTORD-018	Admin - Customer Orders	Verify checkbox selection for delivery confirmation	Items available	1. Tick item checkbox	Checkbox state should update correctly	
TC-CUSTORD-019	Admin - Customer Orders	Verify delivered quantity input accepts valid values	Items available	1. Enter quantity in Delivered field	Quantity should update successfully	
TC-CUSTORD-020	Admin - Customer Orders	Verify damaged quantity input accepts valid values	Items available	1. Enter damaged quantity	Value should save correctly	
TC-CUSTORD-021	Admin - Customer Orders	Verify warehouse selection dropdown works	Items available	1. Select warehouse location	Selected warehouse should display	
TC-CUSTORD-022	Admin - Customer Orders	Verify Generate Invoice button opens invoice modal	Order status not pending	1. Click Generate Invoice	Invoice preview modal should open	
TC-CUSTORD-023	Admin - Customer Orders	Verify Generate Invoice button disabled for pending orders	Order status pending	1. Open pending order	Generate Invoice button should be disabled	
TC-CUSTORD-024	Admin - Customer Orders	Verify Download PDF button works	Invoice generated	1. Click Download PDF	Invoice PDF should download successfully	
TC-CUSTORD-025	Admin - Customer Orders	Verify Print button in invoice preview	Invoice preview opened	1. Click Print button	Print dialog should open	
TC-CUSTORD-026	Admin - Customer Orders	Verify invoice preview modal close button	Invoice modal opened	1. Click Close (X) button	Modal should close successfully	
TC-CUSTORD-027	Admin - Customer Orders	Verify Confirm Delivery modal opens	Order status in-transit/dispatched	1. Click Confirm Delivery button	Confirmation modal should display	
TC-CUSTORD-028	Admin - Customer Orders	Verify Cancel button closes Confirm Delivery modal	Confirm Delivery modal opened	1. Click Cancel button	Modal should close without changes	
TC-CUSTORD-029	Admin - Customer Orders	Verify Confirm button updates delivery status	Confirm Delivery modal opened	1. Click Confirm button	Order status should update to Completed	
TC-CUSTORD-030	Admin - Customer Orders	Verify Success modal displays after confirming delivery	Delivery confirmed	1. Confirm delivery	Success modal should display confirmation message	

<u>Problems Encountered</u>		
Minor frontend styling inconsistencies were identified and working to fix them.		
Certain test cases required modification due to changes in workflow implementation.		
Time management became challenging due to simultaneous development completion and testing activities.		
<u>Planned work that were unable to carry out with reasons</u>		
Final UI polishing and advanced styling enhancements could not be fully completed and are still ongoing.		
Full testing of all system modules could not be completed within this period.		
Unable to arrange a physical meeting with the team due to time management issue.		
<u>Work planned until next meeting</u>		
Continue and complete testing of remaining modules including dashboard functionalities.		
Complete execution of all prepared test cases and record results.		
Identify and fix bugs found during testing activities.		
Perform integration testing and user acceptance testing.		
Continue frontend styling improvements without affecting system functionality.		
Update all project documentation with testing outcomes.		
Begin preparation for final report, demonstration and project presentation.		
<u>Meeting information</u>		
Meeting Date: 2026.05.16		
Meeting time	Start: 9 pm	End: 9.45 pm
Number of participants: 8		

Meeting Date : 2026.05.23		
Meeting time	Start: 8.30 pm	End: 8.50 pm
Number of participants: 8		
<u>Supervisor's Comments</u>		
Student has done	☐ More than enough ☐ Sufficient ☐ Not Enough ☐ No	work.
Student is progressing	☐ Well ☐ Sufficiently ☐ Not Enough	In the project.
